

## Welcome

### Welcome to fourth issue of the ROADMAP newsletter!

This fourth newsletter provides you with up to date information on the project's latest progress.

2017 has been a very busy year, ROADMAP celebrated its first birthday and we are glad to announce that our consortium has officially grown to 26 partners, including the University of Bordeaux (Memento), Takeda, Lundbeck and the University of Leiden as our partners.

The consortium is making great progress and ROADMAP partners presented and discussed the project at various events with international key decision makers.

Enjoy!
